STORMWATER MANAGEMENT CHECKLISTS

The homeowner is responsible for the upkeep of all storm water management facilities on their property. The following checklists should appear on any plans submitted with your application.

RAIN GARDENS:

- ☐ Weekly weeding and watering
- ☐ Annual mulching, pruning and replanting should occur
- ☐ Sediment removal after large storm events and during extreme weather

SEEPAGE PITS & DRYWELLS

- ☐ Inspect after large storm events and weather extremes for blockages from downspouts and cleanout to the pit
- ☐ Clear all debris, as necessary
- ☐ Replace piping and stone when system is overflowing frequently

The following links may be helpful information in planning your storm water facility. Please note that Abington Township cannot create a storm water facility or generate calculations for you.
