Commissioner Myers commented that regarding Moreland Road being resurfaced; many years ago it was re-stripped to five lanes with the center lane being a turn lane, and that has never worked well as a resident who travels that road every day. Also, those lanes are undersized, which is a five-lane stretch from Easton to Fitzwatertown Roads and this may be the time to look at that.

Manager LeFevre replied he will reach out to our PennDOT contact and report back on it.
